

EDUCATION PATHWAYS

Committed to creating **pathways** to higher education and career advancement. We accomplish this through **free** programming that offers holistic support to teen, post-secondary, and adult learners. Our programs take place across the two **Prosper Centers** and onsite at our **housing communities**.

Afterschool and summer **learning programs** offered at our housing communities that provide academic **support** and college and career **exploration** for **teenage residents**.

Individual **coaching** and community **workshops** through two "hubs" at our Prosper Centers where we support students with FAFSA or TASFA submission, verification paperwork, scholarship support and planning ahead for **college success**.

A **supportive** program that provides **first-gen** and **adult students** with a **dedicated coach**, matched savings for tuition, emergency funds, and specialized referrals on campus and across the community.

Our English as a Second Language classes support adults with **building English literacy** and **communication** skills. Basic and Advanced classes are offered at our housing communities and virtually.

A **coaching service** for students or community **members searching for employment**. Our AmeriCorps Job Coach can support individuals with creating a resume or cover letter, applying for jobs, and preparing for interviews.

An initiative that **connects adults** who are interested in advancing within their career or entering into a new line of work with supportive pathways through **credentials or job training**.
